Words from the team

“You must gain control over your money or the lack of it **will forever control you.**”

It is my utmost pleasure to welcome you to Coinbang Limited. I led the foundation of this company with the vision to help people take control of their lives financially by providing them with the best financial investment tools in the world.

I was saddened with the fact that adequate financial services were only exclusive to the rich, leaving the poor to scratch, squander, and waste in the lonely land of penury. As a result, the rich keep getting rich while the poor and average grow poorer daily.

I decided to make a change in this aspect of life and make excellent financial services accessible to everyone, irrespective of where they are from. I built this platform to help launch people into financial bliss. With this vision in mind I formed this company which started as a seven man team.

It gladdens my heart that this vision is helping to change lives globally and our growth has been exponential.

We are excited to be recognized globally as one the most outstanding financial investment companies offering stock trading, digital currency mining and bot trading, spot and future trade analysis, and general financial and investment counselling.

In less than four years of founding the company, we have expanded from London, UK into seven other countries including South Africa, Mauritius, and United Arab Emirates.

We are proud employers of about 1,000 financial analysts, investment bankers, block chain developers, computer engineers, technicians, business managers and marketers.

Each branch of our establishment is equipped with the best crypto mining rigs, crypto trading supercomputers and well trained financial staff and experienced engineers.

We have received numerous awards in recognition of our outstanding financial

services. Trusted globally by over 5 thousand investors worldwide, with about 800 daily signups, we are poised in our goal to lift thousands of investors from absolute poverty, pushing them into financial bliss.

In this regard, we can only be proud of the changes we are making through our

services.

We stand tall in our field as a gigantic lighthouse beaming lights of hope, achievement and financial freedom.

I am glad to have you on this journey with us and hope to delight you with our exquisite financial services.

Here at Coinbang Limited we spread love by empowering people financially, because we believe that in order to achieve greatness in the world, we must first achieve goodness.
